STAT

It is customary (and rather perfunctory) for those staff persons who worked long and hard for the passage of a bill to receive a replica of one of the pens used in the Presidential signing ceremony. In this regard, I would appreciate your forwarding a request for four to be given to the following people:

- (1) Rob Simmons, Staff Director of the SSCI, who was a staunch ally.
- (2) Herbert Romerstein, of the HPSCI staff, who nearly single-handedly got the Ashbrook version through the House.
- (3) Ken deGraffenreid, of NSC, formerly on Senator Chafee's staff, who helped throughout.

STAT

Bill, we are going to need these people again in our effort for FOIA relief. Please help me by getting the pens.
